RE: APPRECIATION OF THE COMPANY ASSISTANCE

Dear Sir,

On behalf of Narukunibua village people we would like to thank the Namosi Joint Venture management for its unforgettable contribution in funding materials for our new water source and water Tank for the village. It has been helping a lot and such a big difference we have found in having this new water source, especially when heavy rain and flood that we still can drink clear water from the 6000ltrs Concrete Tank by turning off the main key from the water source to the Water Tank.

In addition all the rusted old pipe and old taps around the village have all been replaced by new ones.

Once again we would like to thank you for your kindly support.
