**RE: ELECTRICITY SUPPLY TO NAMOSI DISTRICT – SCHEME NO.03/12**

Communiqué dated 1<sup>ST</sup> October 2012 is acknowledged with appreciation.

Sir, on behalf of the people of Namosi District and the Vanua, I would like to take this opportunity to share our utmost appreciation to your generous assistance for paying the District contribution of \$FJ23,909.20 towards the Namosi Electrification project.

It is indeed high timely for us to acknowledge the number of developments you made in our Districts especially the timely assistance that you contributed towards this project and essentially others that I may fail to mention here. The project as highlighted in our request letter earlier legitimizes our need that will directly benefit us to improve living standard of the people of Namosi who have been lagging behind in development purposes across Fiji.

Sir, by the copy of this letter, the 5 village Turaga ni koro will be informed accordingly so that all are aware of this development and most importantly for the people to take ownership of any Developments that will be introduced to in near future.

We hope to continue work in partnership with your Company in the near future solely for the Development of our District and the Vanua as a whole.

With Respect.

.....
