

Employment and Training Opportunities

If the Waisoi Project goes ahead it would create a large number of jobs:

- About 2,000 jobs during construction
- About 1,200 jobs during operation of the project
- Preference is to source employees locally

Many of the jobs would be for skilled workers, examples of skilled jobs are shown below:

Construction workers

Skills Training Program

If the project does go ahead, Namosi Joint Venture (NJV) would start a training program to help local people become qualified for some skilled jobs.

NJV has employed local people throughout the exploration phase.

Electrical assistants

Welders

Mechanical assistants

Small machine operators

Surveyors

Office workers

Information will be collected on local skill sets and training will be provided to support local people to access employment opportunities.
