Step 3 - The EIA Study & Report

What is the EIA Study ?

What is the EIA Report?

Content of EIA Report

Public Notification of Report

fela.org.fj | P: 330 0122

15 Ma'afu Street | Suva | Fiji

Promoting Sustainable Natural Resource Management through Law

EIA Study

- The developer/proponent must arrange for an EIA study to be conducted by a registered EIA consultant based on the approved TOR.

Promoting Sustainable Natural Resource Management through Law

EIA Study Objectives

- Identify & assess the potential environmental & resource management impacts of the proposal.
- Recommend appropriate methods to eliminate or mitigate those impacts.
- To allow developer to make changes to proposal by mitigating significant impacts before EIA produced.
- To produce an EIA report for the proposal.

Promoting Sustainable Natural Resource Management through Law

What is the EIA Report?

- Document that contains the findings of the EIA study.
- Must contain information required by the TOR.
- Must be signed and dated by or on behalf of the developer.
- Have attached to it all reports, plans, analyses and other documents that are need to help readers understand the report.

Promoting Sustainable Natural Resource Management through Law

Content of EIA Report

- Describe purpose & scope of the development.
- Describe the environmental setting of the proposed developmental site.
- Describe the possible environmental impacts of the proposed development.
- Consider technically and economically appropriate alternatives, including the option of taking no action.

Promoting Sustainable Natural Resource Management through Law

Content of EIA Report

- Describe any proposed mitigation actions to reduce or avoid adverse impacts
- Summarize the results of all public consultations held on the proposal
- Make recommendations on preferred development alternatives, mitigation measures and monitoring
- Address any matters specified in the approved TOR

Public Notices

- The completed EIA Report must be entered into the EIA Register and made available for inspection by the public.
- If a processing authority processes the EIA, they may give notice in the local media of the publication of the Report and must advise the public as to where they can obtain a copy of the Report and how the public can participate for reviews
